Docket No. 5007756-71
Customer No. 021129
Amendments to the claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

This is in response to the Office Action of July 7, 2005. Applicant notes that claims 31 - 34 are pending in the application.

1-30 (Cancelled)

31. (Previously Presented) A method of manufacturing a cam for use in food processing machinery comprising the steps of :

establishing a desired three-dimensional follower boundary about a cam,

determining a two-dimensional representation of said desired three-dimensional follower boundary,

utilizing said two-dimensional representation to shape a plastic guide in two dimensions,

wrapping said plastic guide about the cam along said desired three-dimensional follower boundary to form a follower boundary.

32. (Previously Presented) The method as claimed in claim 31 further comprising the step of repeating said establishing, determining, utilizing and wrapping steps to form additional follower boundaries.

33. (Previously Presented) The method as claimed in claim 31 further comprising the step of attaching said plastic guide to the cam.
